

I am from Indiana and wish to notify the FCC that I firmly oppose any federal law that would weaken the current Indiana Do Not Call law. Prior to this law, we received anywhere from 1 to 3 calls a day from solicitors. Now, we truly don't receive any. Our home is much more peaceful, especially the important evening hours for family dinner/homework/bedtime stories. My husband and I don't hesitate to answer our phone anymore - we know it will be a call from someone who knows us and has a specific reason for calling.
